Services

## Package design, testing & evaluation

Scientific, independent and accurate pack-out validation (DQ, OQ, PQ)

### Maxify Technology

**MAXIFY** technology is revolutionizing the shipping of temperature-sensitive biologics, enabling MaxQ No-Bench-Time packaging solutions to provide unmatched shipping and cost efficiencies, thermal performance, and TOTAL VALUE.

#### Case Study: Performance qualification (PQ)

MaxQ validated pack-out for a large blood center affiliation.

**Requirement:**

Validate pack-out for shipping multiple units of diagnostic specimens across four midwestern states in the U.S..

**Services provided:**

- 1) Pack-out design
- 2) Payload testing and analysis
- 3) A new validated outbound shipping system

**Benefits:**

Cost savings from improved payload performance, reduced packaging costs and simplified setup.
